
APPLICATION OF PRICE LIST

This Domestic Informational Price List (DIPL or Price List) contains the rates terms and conditions applicable to the provision of services described herein by the Issuing Carrier, hereinafter referred to as Carrier, Company, Bay Springs Telephone Company, Inc. or BST.

They are terms and conditions that will initially apply to customers without other contractual arrangements. Customers with preexisting contractual arrangements will continue to be provided with the service pursuant to those contracts. The Company reserves the right to modify these provisions on a prospective basis and to provide service under such modified provisions. Customers will be given notice of such modifications through mailings, publications, or other processes.

SECTION 1 - DEFINITIONS

For the purpose of these schedules the terms and expressions listed below shall have the meanings set forth opposite them.

ACCESS Each connecting arrangement allowing connection to exchange facilities. See Main Station and Extension Service Access.

ACCESSORIES Devices which are mechanically attached to, or used with, the facilities furnished by the company and which are independent of, and not electrically connected to, the conductors in the communications path of the telecommunications systems.

ACOUSTICAL CONNECTION A connecting arrangement without electrical connections that permit transmission of sound between a company provided telephone instrument and customer provided equipment.

APPLICANT - A person, firm, corporation or other organization applying for telecommunications service.

AUTHORIZED USER - A person, firm or corporation (other than the subscriber) on whose premise a telephone, private branch exchange, or private line service or channel is located and who may communicate over such channels in accordance with the terms of the price list.

BASE RATE - The rate for primary classes of exchange service which does not include zone or extra exchange line mileage charges.

BASE RATE AREA - A specific section of an exchange area within which primary classes of service are available without zone or extra exchange line mileage charges.

BASE STATION OF REGISTRY - The base station from which a mobile unit receives its mobile telephone number.

BUILDING (SAME) - The term "same building" is to be interpreted as a structure under one roof, or two or more structures under separate roofs but connected by enclosed passageways in which the wires or cables of the company can be safely run provided the plant facility requirements are not appreciably greater than would be required normally if all structures were under one roof. In those cases where there are several structures under separate roofs but connected by enclosed passageways and the plant facility requirements for furnishing service are appreciably greater than would be required

SECTION 1 - DEFINITIONS

BUILDING (SAME) (Continued) - normally if all the structures were under one roof, the term “same building” applies individually to each of the separate structures. Pipes and conduit are not considered enclosed passageways.

BUSINESS SERVICE - Telephone service furnished to customers where the actual or obvious use is principally or substantially of a business, professional or occupational nature.

CALL - An attempted or completed communication.

CANCELLATION CHARGE - A charge applicable under certain conditions when an application for service and/or facilities is canceled in whole or in part prior to the completion of the work involved.

CENTRAL OFFICE - A switching unit, in a telecommunications system which provides service to the general public, having the necessary equipment and operating arrangements for terminating and interconnecting subscriber lines and trunks or trunks only. There may be more than one central office in a building.

CENTRAL OFFICE CONNECTING FACILITY - Denotes a facility furnished to an Other Common Carrier by the company (in accordance with the company's facilities for Other Common Carrier's tariffs) between the terminal location of the Other Common Carrier and a point of connection on the telephone company premises.

CENTRAL OFFICE LINE - A circuit directly connecting an individual or party line main station, or private branch exchange switchboard or an intercommunicating system with a central office.

CHANNEL - A path for communications between two or more stations, or company offices, furnished in such a manner as the company may elect, whether by wire, radio or a combination thereof and whether or not by a single physical facility or route.

CIRCUIT - A channel used for the transmission of electrical energy in the furnishing of telephone and other communications service.

CLASS OF SERVICE - The various categories of service generally available to the subscriber, such as business, residential, public or semi-public service.

COIN TELEPHONE SERVICE - See Paystation Telephone Service.

COMMISSIONS - A percentage of collections paid as a fee in consideration of service rendered to the company.

COMMUNICATIONS SYSTEMS - channels or other facilities which are capable when not connected to telecommunications services, of two way communications between customer provided terminal equipment or company stations.

SECTION 1 - DEFINITIONS

COMPANY - Whenever used in this price list, "company" refers to this Telephone Company unless the context clearly indicates otherwise.

COMPOSITE DATA SERVICE - The term "Composite Data Service" denotes the combined use of terminal and customer-provided data switching equipment with the use of communication services of the company by a Composite Data Service Vendor to perform data switching for others.

COMPOSITE DATA SERVICE VENDOR - The term "Composite Data Service Vendor" denotes a customer that has been certified by the Public Service Commission and/or Federal Communications Commission pursuant to Section 214 of the Communications Act of 1934, as amended, to acquire and operate facilities to perform data switching for others. A customer shall be classified as a composite data service vendor only with respect to use of those exchange services which are utilized for the provision of composite data service.

CONFORMANCE NUMBER - The term "conformance number" denotes an identifying number assigned by the company to a particular model of conforming answering device incorporating an authorized protective connecting module when that model of device is in conformance with the provisions set forth by the company.

CONFORMING ANSWERING DEVICE - The term "conforming answering device" denotes a customer-provided device which automatically answers incoming calls; transmits a prerecorded voice message or appropriate audible signal to the calling party; records a voice message from the calling party if so designed and arranged; and automatically disconnects from the line in a prearranged manner on completion of the last of the functions for which it was designed and arranged as described in this paragraph. The conforming answering device may include remote interrogation and/or device function control. A conforming answering device must incorporate an authorized protective connecting module and must bear a valid conformance number.

CONNECTING ARRANGEMENT - The equipment provided by the company to accomplish the direct electrical connection of customer provided facilities with the facilities of the company.

CONNECTING COMPANY - A corporation, association, firm or individual, licensed and operating as a communications common carrier, owning and operating a toll line and/or one or more central offices providing local exchange telephone service to the public and with whom the company interchanges traffic.

CONNECTING TERMINAL - See Interface

CONSTRUCTION CHARGE - A separate charge authorized in the price list for construction of pole lines, circuits, facilities, etc.

SECTION 1 - DEFINITIONS

CONTINUOUS PROPERTY - The plot of ground, together with any buildings thereon, occupied by the subscriber, which is not divided by public highways or separated by property occupied by other. Where a subscriber occupies property on both sides of a street, alley, highway, body of water, railroad right of way, etc., and the properties would otherwise be continuous, such properties are treated as continuous property provided local wire or cable facilities are used and the subscriber furnishes all local distribution pole line facilities or underground conduit required in connection therewith.

CONTRACT - Refers to the agreement between a subscriber and the company under which telecommunications service and facilities are furnished in accordance with the applicable provisions of the tariffs.

COST - The cost of labor and materials, which includes appropriate amounts to cover the company's general operating and administrative expenses.

CREDIT CARD - Denotes a billing arrangement by which a Long Distance call may be charged to an authorized company credit card number.

CUSTOMER - see Subscriber .

CUSTOMER'S PREMISE - Is defined as a point where a customer's drop connects to a main or feeder cable to the terminal equipment.

CUSTOMER PROVIDED TERMINAL EQUIPMENT - Devices, apparatus and their associated wiring, provided by a customer, which are used with the network control signaling unit, data set or other station equipment furnished by the company and not including customer-provided communications systems.

DATA ACCESS ARRANGEMENT - A protective connecting arrangement for use with the network control signaling unit, or in lieu of the connecting arrangement, an arrangement to identify a central office line and protective facilities and procedures to determine compliance with criteria set forth in section "Connection with Customer-Provided Equipment and Facilities" of this price list.

DIAL SWITCHING EQUIPMENT - A unit of electro-mechanical or electronic switching equipment used in a central office or in connection with a private branch exchange system.

DIRECT CONNECTION - Connection of terminal equipment to the telephone network by means other than acoustic and/or inductive coupling.

SECTION 1 - DEFINITIONS

DIRECTORY LISTING - The publication in the company's directory and/or information records of information relative to a subscriber's telephone number, by which telephone and TWX users are enabled to ascertain the call number of a desired station.

DROP WIRE - Wires used to connect the circuits of open wire, aerial or underground distribution facilities to the point where connection is made with the inside wiring.

ENTRANCE FACILITIES - Facilities extending from the point of entrance on private property to the premises on which service is furnished.

EXCHANGE - A basic geographical unit established for the administration of telephone service in a specified area, called the "Exchange Area", which usually embraces a city, town or village, and its environs. It may consist of one or more central offices, together with the associated plant, equipment, and facilities used in furnishing communication service within that area.

EXCHANGE AREA - The territory served by an exchange.

EXCHANGE LINE - Any line (circuit) directly or indirectly connecting an exchange station with a central office.

EXCHANGE SERVICE - The general telephone service rendered in accordance with tariff provisions. Exchange service is a general term describing as a whole the facilities provided for local intercommunication, together with the right to originate and receive a specified or an unlimited number of local messages at charges in accordance with the provisions of this price list.

EXTENDED AREA SERVICE - A type of telephone service furnished under tariff provisions whereby subscribers of a given exchange may complete calls to and where provided by the tariff, receive messages from one or more exchanges without the application of long distance message telecommunications charges.

EXTENSION SERVICE ACCESS - Each access point in excess of one main station per central office line.

EXTENSION AND PABX STATION MILEAGE - The charges made for the additional circuit required to furnish such stations beyond the allowance distance from the main station or PABX switchboard.

EXTENSION BELL - An additional bell on the same premises and on the same line and generally operated in connection with the bell at the station location.

EXTENSION LINE - A circuit connecting a primary station with an extension station, or a circuit connecting a private branch exchange switch with a private branch exchange switchboard. An extension line may terminate on a key in lieu of an instrument.

SECTION 1 - DEFINITIONS

EXTENSION STATION - An additional station connected on the same line as the main station and subsidiary thereto.

EXTRA EXCHANGE LINE MILEAGE OR ZONE CHARGE - The measurement on which charges are based for that portion of the circuit extending beyond the base rate area but within the exchange area, which is used to furnish graded services in the rural area.

EXTRA LISTING - Any listing of a name or information in connection with a subscriber's telephone number beyond that to which he is entitled without additional charge in connection with his regular service.

FLAT RATE SERVICE - A classification of exchange service for which a stipulated charge is made, regardless of the amount of use.

FOREIGN ATTACHMENT - Equipment or facilities not owned, furnished or authorized by the company, which is attached or connected to and used with exchange telephone service.

FOREIGN CENTRAL OFFICE - Any central office other than that which serves the area in which the subscriber is located.

FOREIGN EXCHANGE LINE MILEAGE - The measurement applying to that portion of a central office line connecting a customer with a foreign central office, from the common boundary line to the customer's station, for which a monthly charge is made in addition to the base rate for exchange service, plus zone charges if any apply.

FOREIGN EXCHANGE SERVICE - Telephone exchange service furnished to a subscriber from a central office of an exchange other than the exchange regularly serving the area in which the subscriber is located.

GRADE OF SERVICE - The term used in describing exchange service with respect to the number of main telephones which may be connected to a central office line. (one party, two party, four party, etc.)

GROUND POTENTIAL RISE - A hazardous voltage appearing on the power station grounding apparatus when certain failures occur in the power distribution system.

HARM - Harm consists of hazards to personnel, damage to company equipment, and impairment of service to persons other than the user of the customer provided equipment. Types of harm include, but shall not be limited to, voltages dangerous to personnel, destruction of or damage to company equipment, induced noise or cross talk, incorrect dial pulsing, failure of supervision, false answer, incorrect billing, absence of voice band transmission path for call progress signals, and loss of capability to answer an incoming call.

SECTION 1 - DEFINITIONS

INDIVIDUAL LINE - A classification of exchange service which provides that only one main station shall be served by the line connecting such station with the central office or other switching unit.

INDUCTIVE CONNECTION - Electromagnetic coupling between customer-provided equipment and company equipment by means of mutual inductance between an inductor in the company equipment and a customer-provided inductor external to the company equipment.

INITIAL OR MINIMUM SERVICE PERIOD - The minimum length of time for which a subscriber is obligated to pay for service, facilities, and equipment, whether or not retained by the subscriber for such minimum length of time.

INSTALLATION CHARGE - A non recurring charge applying to the provision of certain items of equipment or facilities as distinguished from the service connection charge applicable for establishment of basic telephone service. The installation charge is normally associated with optional service features and may sometimes be called an "initial" or "non recurring" charge.

INTERCOMMUNICATING SYSTEM - An arrangement consisting of two or more stations, each such station being equipped with switching device by means of which user can signal and connect with any other station in the system.

INTERFACE - The term "interface" denotes that point on the premises of the subscriber at which provision is made for connection of other than telephone company provided facilities to facilities provided by the telephone company.

JACK - A modular connecting device used to terminate a circuit for connection of portable telephone instrumentalities or other equipment.

KEY TELEPHONE SET - A telephone set equipped with keys or buttons in the mounting.

LOCAL CHANNEL - Applies to that portion of a channel which connects a station to an interexchanging channel. A channel connecting two or more stations within an exchange area.

LOCAL EXCHANGE SERVICE - A type of localized calling whereby a subscriber can complete calls from his station to other stations within a specified area without the payment of long distance charges.

LOCAL SERVICE AREA - The area within which telephone service is furnished subscribers under a specific schedule of exchange rates and without long distance charges. A local service area may include one or more exchange service areas.

SECTION 1 - DEFINITIONS

LOCAL ACCESS AND TRANSPORT AREA (LATA) - A geographic area established for the administration of a communication service. It encompasses designated exchanges which are grouped to service common social, economic and other purposes.

LOCAL CHANNEL - Applies to that portion of a channel which connects a station to an interexchanging channel. A channel connecting two or more stations within an exchange area.

LOCAL EXCHANGE SERVICE - A type of localized calling whereby a subscriber can complete calls from his station to other stations within a specified area without the payment of long distance charges.

LOCAL SERVICE AREA - The area within which telephone service is furnished subscribers under a specific schedule of exchange rates and without long distance charges. A local service area may include one or more exchange service areas.

MAIN STATION - The first access station connected to the company's central office line.

MESSAGE - A communication between two stations. Messages may be classified as follows:

- a. Local Message: A message between stations within the same local service area.
- b. Long Distance Message: A message between stations in different exchange areas for which a long distance message charge is made.

MEASURED RATE SERVICE - A classification of exchange service which includes an individual line with a monthly outward local usage allowance for a stipulated monthly charge. A charge for usage applies for outward local calls completed in excess of the allowance and is based on one or more of the following elements: number of calls, duration, time of day, day of week and distance between originating and terminating central offices.

MILEAGE - The measurement upon which charges are computed for extension, tie, private lines and for lines serving exchange stations located outside the central office area of the connecting central office.

MINIMUM CONTRACT PERIOD - The minimum length of time for which a subscriber is obligated to pay for service, facilities and equipment, whether or not retained by the subscriber for such a minimum length of time.

MOBILE TELEPHONE SERVICE - A communication service through a land radio-telephone base station.

SECTION 1 - DEFINITIONS

NETWORK CONTROL SIGNALING - The transmission of signals used in the telecommunications system which perform functions such as supervision (control, status and charging signals), address signaling (dialing), calling and called number identification, audible tone signals (call progress signals indicating recorder or busy conditions, altering, coin denominations, coin collect and coin return tones) to control the operation of switching machines in the telecommunications system.

NETWORK CONTROL SIGNALING UNIT - the terminal equipment furnished, installed, and maintained by the Company for the provision of network control signaling.

NON RECURRING CHARGE - A one time charge associated with certain installations, change or transfer of services, either in lieu of or in addition to recurring monthly charges.

OPERATOR'S SET - A headset used by an operator at a switchboard or console consisting of a receiver, transmitter and necessary cords.

PAYSTATION TELEPHONE SERVICE - Telephone service furnished from stations equipped with a device for collecting coins in payment for telephone service.

PARTY LINE - A single central office line designed to connect more than one primary station with the central office.

PORTABLE TELEPHONE - A telephone instrument equipped with a plug-ended cord for use with a jack terminated circuit.

PREMISES (SAME) - The term "same premises" shall be interpreted to mean: (a) The building or buildings, together with the surrounding land occupied or used in the conduct of one establishment or business, or as a residence, and not intersected by a public thoroughfare or by property occupied by others; or (b) the portion of the building occupied by the subscriber either in the conduct of his business or as a residence, and not intersected by a public corridor or by space occupied by others; or (c) the building or portion of a building occupied by the subscriber in the conduct of his business and as a residence provided both the business and the residence bear the same street address; or (d) the continuous property operated as a single farm whether or not intersected by a public thoroughfare.

In connection with inside moves, the term "same premises" is to be interpreted to mean the building or portion of a building occupied as a unit by the subscriber in the conduct of his business or residence, or a combination thereof, and not intersected by a public thoroughfare, a corridor, or space occupied by others.

PRIMARY CLASS OF SERVICE - Any of those classes of exchange service which the company undertakes to furnish at any point within the base rate area at a rate common to all applicants for the same class. Primary classes of service may be furnished at points outside a base rate area at base rates plus zone or extra exchange line mileage.

SECTION 1 - DEFINITIONS

PRIVATE BRANCH EXCHANGE SERVICE (PABX SERVICE) - A type of service providing an arrangement of switching equipment and stations for intercommunicating among the stations and for connections through the local and long distance message telephone network to other subscribers.

Lines (circuits), equipment and facilities ordinarily furnished in connection with PABX service include the following:

1. **PABX Station:** A station connected with a PABX switchboard or PABX dial switching equipment.
2. **PABX Extension Station:** A telephone set which is bridged to the same line as the PABX station.
3. **PABX Interior Station:** A PABX station that cannot originate or receive calls outside the PABX either directly or through the PABX attendant.
4. **PABX Trunk:** A central office line (circuit) connecting a PABX system with a central office.
5. **Tie Line:** A circuit connecting PABX or Centrex systems.

PRIVATE LINE - A circuit provided to furnish communication only between two or more instrumentalities directly connected to it. Such instrumentalities do not have access to the general exchange and interexchange networks.

PUBLIC TELEPHONE - An exchange station, either attended or equipped with a coin collecting device, designed and placed for use by the public in general, at locations chosen or accepted by the company

REGISTERED TERMINAL EQUIPMENT - Terminal equipment which is registered in accordance with the rules and regulations in Part 68, Subpart C of FCC Docket 19528.

RESIDENCE SERVICE - Telephone service furnished to customers when the actual or obvious use is for domestic purposes.

SEMI-PUBLIC TELEPHONE - An exchange station equipped with a coin collecting device, designed for a combination of customer and public usage at locations more or less public in character. Semi-public telephone service is considered as a form of customer service.

SERVICE CONNECTION CHARGE - the charge at the time of the establishment of a class of telephone service or subsequent additions or changes to that service.

SECTION 1 - DEFINITIONS

SERVICE LINE - An exchange line associated with multiple data station installations to provide monitoring and testing of both customer and telephone company data equipment. The service line may be connected a PABX, Centrex, or individual line (main or extension station) so long as direct station access is provided.

SERVICE POINTS - When used in connection with customer-provided communication channels denotes the points on the customer's premises where such channels or facilities are terminated in switching equipment used for communications with stations or customer-provided terminal equipment location on the premises.

STATION - A unit of service, complete with all instrumentalities (e.g., telephone set, connecting block, inside wiring, protection apparatus, drop or block wiring) and lines (circuits), so arranged as to permit sending and receiving messages through the exchange and long distance network. Also denotes a termination of an individual exchange line or PABX trunk provided in accordance with the provisions of this price list, in telephone company switching equipment location on the premises.

Company Station: A station for which the central office equipment, lines and station equipment are owned and maintained by the company and provided as a part of the company's service offering. This term also denotes the network control signaling unit, data set or other equipment provided by the company at the customer's premises which enables the customer to establish the communications connections and to effect communications through such connections.

STATION CREDIT FOR CUSTOMER-PROVIDED TELEPHONE INSTRUMENTS - A credit applicable to each service access where there is no company provided station, for a main or extension line with individual line residence or individual line business exchange service.

SUBSCRIBER - Any person, firm, partnership, corporation, municipality, cooperative organization or governmental agency furnished communication service by the company under the provisions and regulations of its tariff.

SUSPENSION OF SERVICE - An arrangement made at the request of the subscriber, or initiated by the Company for violation of tariff regulations by the subscriber, for temporarily discontinuing service without terminating the service agreement or removing the telephone equipment from the subscriber's premises.

SECTION 1 - DEFINITIONS

TERMINATION CHARGE - A charge applying when a subscriber discontinues an item of service or equipment prior to the expiration of the initial service period designated for such item. The basic termination charge is an amount established for an individual item of service or equipment from which the termination charge is computed.

TOLL LINE - A circuit used exclusively for the transmission of messages between points located in different exchange areas where specific charges for each such message are applicable.

TOLL MESSAGE - A message between stations in different exchange areas and furnished under the provisions of the applicable toll tariff.

CREDIT CARD CALL - A toll message in which associated charges are billed to a credit card number assigned by a telephone company and issued to either the called or calling party.

MESSENGER SERVICE - An arrangement whereby the company, when possible and at the request of the calling party, will arrange to notify the called party of a long distance call. The company shall be reimbursed by the calling party for the amount expended for such messenger service, such charges being subject to prior authorization by the calling party to the extent that they can be determined in advance. Such charges for messenger service are in addition to the price list charges for the message.

STATION TO STATION - A toll message in which the user desires communication with anyone who answers.

TOLL RATE - The initial period charge prescribed for toll messages usually based upon the duration of the initial period and distance between exchanges.

TOLL SERVICE - Toll service is that part of the total telephone service rendered by the Company which is furnished between subscribers in different exchange areas in accordance with the rates and rules specified in the toll tariffs.

UNDERGROUND SERVICE CONNECTION - A subscriber's "drop" wire which is ran underground from a pole line or an underground distributing cable.

UTILITY - See "Company".

VISIT CHARGE - A charge applied when the use of customer-provided equipment or facilities causes impairment or harm to the Company's facilities and a visit to the subscriber's premises is necessary.

SECTION 1 - DEFINITIONS

WIRE CENTER - A wire center is a building where outside plant (cables and wires) located in a specific geographical area are terminated and where these facilities are normally cross-connected to central office equipment at that location.

WIRE CENTER SERVING AREA - The term "Wire Center Serving Area" denotes, in most cases, that area of the exchange served by a single wire center.

ZONE - One of a series of specified areas, beyond the base rate area of an exchange, in which service is furnished at rates in addition to base rates.

SECTION 2 - RULES AND REGULATIONS

General Regulations

Contained herein are specific service descriptions and rates for Company's domestic services. Carrier is a specialized common carrier providing local telephone communications and long distance telephone service to customers for their direct transmission and reception of voice, data, and other types of telecommunications. International communication services are provided only in conjunction with Carrier's domestic interstate communication services.

Customers may originate calls over switched services several ways; when the customer dials the desired telephone number (including an area code or country/city code); by dialing 101XXXX then the desired telephone number; or, on a dial-up basis by calling the local access number or an 800 service number. Access may be provided over a dedicated access line (DAL) or switched access line, the DAL may be provided by the Carrier or the customer. When the customer provides the access arrangement, the Carrier can act as the customer's agent in obtaining access but must in any event approve the design of any dedicated access facility the customer proposes to use. When a call, for some services, is originated using a local access or 800 service number, the Carrier's equipment may, for certain services, answer the access call with a computer tone. The customer may enter additional routing and identifying information. In these instances, communication charges will commence and terminate when the Carrier's switch determines that the call has commenced and terminated, respectively.

Regarding interstate and intrastate long distance calling, the customer's monthly usage charges are assessed based upon the time the customer uses the Carrier's intercity communication facilities as measured by the Carrier's electronic switching equipment, together with the use of service option, if any. Unless otherwise specified, calls will be measured from the time that either the calling or called party disconnects from the call, as indicated by answer supervision. No charge is made for calls not completed. It is not the Carrier's policy to charge a customer for uncompleted calls. A customer may dispute any charges by contacting the Carrier's Customer Services Department and proper credits will be issued if, upon investigation, the disputed charges are found to be incorrect. For billing purposes, the duration of each call will be rounded as specified in the description of each service option in the following sections. The rates per minute charged for service are set forth in Section 3 of this Price List.

At additional cost, and subject to availability, the customer may use accounting codes to identify the users or user groups on his account and to allocate the cost of his service accordingly. The numerical composition of such codes shall be set by the Carrier to assure compatibility with Carrier's accounting and automation systems and to avoid duplication of accounting codes.

Customer orders for special services, technical assistance, equipment, or non-routine maintenance and/or installation (the "Special Services"), if available, shall be subject to additional charges determined on a case by case basis. Should the Carrier agree to provide a Special Service and the customer cancels his/her order prior to the commencement of a Special Service or before completion of a minimum period of usage mutually agreed upon by the parties, a charge shall be payable by the customer for the nonrecoverable portions of expenditures or liabilities incurred by the Carrier as a result of the Carrier's order.

SECTION 2 - RULES AND REGULATIONS

General Regulations (Cont'd)

For service that involves the use of an authorization code, Company may assess a network blocking charge on customers for each excessive call attempts, as well as any other usage, recurring and non-recurring charges as set forth in this Price List. These charges do not constitute liquidated damages, accord any satisfaction, compromise or settlement of any dispute and are in addition to any Civil or Criminal liabilities of the customer for unauthorized use of the Carrier's network.

Company may assess an access charge to aggregators who route operator service calls to the Carrier's network to recover the costs of routing and blocking such all attempts.

The subscriber must obtain an adequate number of access lines for any of Carrier's 800 service to handle the subscriber's expected demand in order to prevent interference or impairment of this service and or any other service provided by the Carrier considering (1) total call volume; (2) average call duration; (3) time-of-day characteristics and (4) peak calling period. The Carrier, without incurring any liability, may disconnect or refuse to furnish any 800 service to a subscriber that fails to comply with these conditions. In case of disconnection, the subscriber will be notified at least five days in advance of the disconnect. Notification may be by mail or in person.

Reservation of an 800 number may be controlled by an independent third party and is subject to availability of the number at the time a written request is fully processed by all involved parties. Carrier confirmation of verbal requests made prior to receipt of a written request is not binding on Carrier.

Use of Carrier 800 inbound services and 800 telephone numbers is expressly subject to any 800 service policies the Company may implement or may be required to implement from time to time. Customer shall not sell, broker, barter, assign, transfer, or release for a fee (or otherwise) any 800 number. With respect to Company assigned 800 numbers, Company shall be deemed the responsible organization (Resp Org). In addition to any other limitations on liabilities contained herein, customer indemnifies and holds Company harmless from all liabilities associated with customer's use of an 800 number including without limitation the premature or incorrect publication or advertisement of an 800 number. Upon cancellation or termination of any 800 service that uses an 800 number that is or may be shared Customer forfeits entirely the right to continued use of the 800 number. If at the time of cancellation of inbound services the customer owes an outstanding balance (30 days or more) to the Resp Org on its FTC account, the Customer's 800 number shall not be released to another long-distance carrier or Resp Org.

It is unlawful to use any telephone number beginning with an 800 service access code, or any other telephone number advertised or widely understood to be toll free, in a manner that would result in: (a) the calling party or the subscriber to the originating line being assessed, by virtue of completing the call, a charge for the call; (b) the calling party being connected to a pay per call service; (c) the calling party being charged for information conveyed during the call unless the calling party has a presubscription or comparable arrangement; or (d) the calling party being called back collect for the provision of audio or data information services, simultaneous voice conversation

SECTION 2 - RULES AND REGULATIONS

General Regulations (Cont'd)

The General Regulation applicable to all domestic and international services, are set forth herein. The detailed product descriptions and rates for services are found in Sections 2 and 3 of this Price List.

At the Company's option, the Company may either (1) directly bill a customer for any dedicated access line charges of a local exchange carrier or alternate access provider that are incurred by the Company on behalf of the customer, or (2) require the customer to be billed directly by the customer's local exchange provider or alternate access provider for any charges associated with dedicated access lines required to access a Company's dedicated service option.

Limitations of Service

Service is offered subject to the availability of the necessary facilities and/or equipment and subject to the provisions of this Price List. The Carrier reserves the right not to provide service to or from a calling location or types of calling locations where the necessary facilities or equipment are not available, or where a pattern of calling reasonably evidences suspected fraudulent or unauthorized calling between those locations.

The Carrier reserves the right to discontinue or suspend furnishing service, without written notice, when necessitated by conditions beyond its control, when the customer is using the service in violation of the provisions of this Price List, or in violation of the law, the network is or could be placed in peril by customer's use.

Title to all facilities provided by the Carrier under these regulations remains with the Carrier.

Use of Service

The services offered herein may be used for the transmission of communications to or by the customer. Service shall not be used for any unlawful purpose, including, but not limited to, the resale of such service without the necessary certificates of authority for such resale, or without complying with other legal requirements for such resale as may be required by the Communications Act of 1934, the rules and regulations of the Federal Communications Commission, and the statutes or regulations of any state.

Interconnection

Service furnished by the Carrier may be interconnected with services or facilities of other authorized communications common carriers and with private systems, subject to the technical limitations established by the Carrier. Service furnished by the Carrier is not part of a joint undertaking with other such carriers. Any special interface equipment or facilities necessary to achieve compatibility between the facilities of the Carrier and other participating carriers shall be provided at the customer's expense. Interconnection with the facilities or services of other carriers shall be under the applicable terms and conditions of the other carrier's tariffs, rules, and regulations. The customer is responsible for taking all necessary legal steps for interconnecting his customer-provided terminal equipment or communications systems with Carrier's facilities. He shall secure all licenses, permits, rights-of-way, and other arrangements necessary for such interconnection.

SECTION 2 - RULES AND REGULATIONS

Basic Terms and Conditions of Service

Service is provided and billed on the basis of a minimum period of at least one month, beginning on the date that billing becomes effective, and continues to be provided until canceled, by the customer, in writing, on not less than thirty (30) days' notice.

Service is offered on a monthly basis.

For the purpose of computing charges in this Price List, a month is considered to have 30 days. The name(s) of the customer(s) desiring to use the service must be stipulated in the application for service.

All term plans will automatically renew for successive periods of twelve months unless the Customer notifies the Carrier in writing prior to the expiration of their then-current term plan that they intend to terminate the agreement at the completion of its term. The Carrier will inform the Customer of its auto-renewal provision when service is initially offered. In addition, the Carrier will also notify the Customer of this provision at least 60 days prior to the expiration of their then-current term.

Payment and Billing

The Customer shall be responsible for all calls placed by or through Customer's equipment by any person. In particular and without limitation to the foregoing, the Customer is responsible for any calls placed by or through the Customer's equipment via any remote access features. The Customer is responsible for all calls placed via their authorization code as a result of the Customer's intentional or negligent disclosure of the authorization code. Charges based on actual usage subject to all minimum charge provisions during a month will be billed monthly in arrears. Charges for installation, physical or administration changes, or for cancellation of orders are payable upon completion.

The Carrier shall bill on a current basis all charges incurred by and credits due to the Customer. The Carrier shall bill in advance charges for all services to be provided during the ensuing billing period except for charges associated with service usage, such as interstate and intrastate calls made during the period.

Bills will be payable upon receipt. Interest at the rate of 2% per month or \$4.50 whichever is higher may be applied in accordance with Carrier's standard credit policy to any unpaid amount commencing 10 days after the bill due date. See Late Payment Penalty Charges in Section 3 of this Price List.

Carrier may require customer to submit a formal credit application. Applicants for service or customers whose financial condition is not acceptable to the Carrier or is not known to the Carrier, may be required at any time to make a deposit of \$75.00 for residential services or \$100.00 for business services. The Carrier reserves the right to require applicants who have filed bankruptcy owing the Carrier unpaid monies, to pay an initial service deposit up to or equaling the previously unpaid amount. Carrier may also require customers to provide other assurances of payment through the use of credit cards, bank accounts, debits, or similar means. In the case of a cash deposit, interest will be paid for the period during which the deposit is held by the carrier at the interest rate(s) set by the Mississippi Public Service Commission. While normally the deposit with interest will be remunerated to the customer after a twelve-month period, at the Carrier's option, such deposit may be refunded or credited to the customer at any time prior to termination of service. Interest will not be paid on deposits held less than six (6) months.

SECTION 2 - RULES AND REGULATIONS

Payment and Billing (Cont'd)

For the purpose of billing, the start of service is the day of acceptance by the customer of the Carrier's service. The end of service is the last day after receipt by the Carrier of notification of discontinuance. The Carrier, at its option, may terminate service for nonpayment after written notification has been made to the customer of delinquency.

When payment in the form of a bank check for services rendered is returned to the Carrier, the customer will be assessed a service charge not exceeding that which is permitted by applicable law. This assessment will be based upon any of the following conditions: insufficient or uncollected funds, closed account, apparent tampering, missing signature or endorsement, or any other insufficiency or discrepancy necessitating return of the instrument at the discretion of the drawee bank.

The customer shall give the Carrier prompt written notice of any disputed charges appearing on an invoice. This notice must be received by the Carrier within fifteen (15) days after the bill's due date. After receiving notice of a dispute, the Carrier shall take reasonable steps to resolve such disputes. The customer shall pay all charges, including disputed charges, while resolution of the disputed charges is pending. This action will allow the customer to avoid automatically rendered late payment fees. Nonpayment of charges for services may result in the interruption or discontinuance of any or all of the services furnished the subscriber.

In the event that legal action is instituted by Carrier to recover any sums then due and Carrier prevails, Carrier shall be entitled to recover its costs of collection, legal costs, court costs and reasonable attorneys' fees, in addition to whatever other relief the court may award. Any sums then due shall earn interest at the rate of two (2%) percent simple interest per month (unless a lower rate is prescribed by law, in which event at the highest rate allowed by law), from the date these sums were accrued until the entire debt is paid in full.

Customer and Carrier agree that, absent another Carrier designation to customer or other provision of law, an action to recover Carrier's charges or fees for services provided to customer that remain unpaid or delinquent, and to otherwise enforce the Terms of the service agreement between Carrier and Customer, shall lie if brought and maintained in a court of competent jurisdiction located in Mississippi, where Carrier's retail accounts are normally supported. Customer and Bay Springs Telephone Company accept the jurisdiction and venue of such courts and shall not object to their jurisdiction and venue. Carrier may also initiate an action to collect unpaid charges or fees and to enforce terms and conditions in any other place where customer is subject to jurisdiction and services.

To obtain credits for wrong numbers, cut-offs or poor transmission of calls, the customer has the following options: 1) an immediate inconvenience credit may be obtained for wrong numbers, cut-offs, and poor transmission of calls by calling the Company's Customer Service Department. The immediate credit given may not be equal to the actual charge of the call in question or; 2) the customer has the option upon obtaining their monthly invoice, to identify the specific charge for which they request adjustment, and submit a copy of the invoice to the Company's Customer Service Department to receive the requested credit. The credits for these calls are given as detailed in Section 2 following. The Company reserves the right to determine what charges in question receive a credit.

SECTION 2 - RULES AND REGULATIONS

Liability

The entire liability of the Company for all claims of whatever nature arising out of the Company's provision of the services and not caused by the customer's negligence, shall not exceed an amount equal to the proportionate fixed monthly charges to the customer for the period of service during which any mistake, omission, interruption, delay, error, or defect in the services of the Company's equipment or any other event of action giving rise to a claim, occurs. The Company's liability for its willful misconduct, if any, is not limited by its tariff or Price List. In no event shall the Company be liable for special, punitive, consequential, or incidental damages. The Company disclaims any express or implied warranties with respect to the services of company equipment, including without limitation, any implied warranties or merchantability and fitness for a particular purpose.

The Company is not liable for any act of omission of any other company or companies furnishing a portion of the service.

The Company shall be indemnified and held harmless by the customer against:

- 1) Claims for libel, slander, infringement of copyright or unauthorized use of any trademark, trade name or service mark arising out of the material, data, information, or other content transmitted over the Company's facilities.
- 2) Claims for patent infringement arising from combining or connecting the Company's facilities with apparatus and systems of the customer.
- 3) All other claims arising out of any act of omission of the customer in connection with any service provided by the Company.

The Company shall not be liable for and the customer indemnifies and hold the Company harmless from any and all loss, claims, suits, or other actions, or any liability whatsoever, whether suffered, made, instituted or asserted by the customer or by any other party or persons, for any personal injury to, or death of any person, or persons, and for any loss, damages, defacement or destruction of the premises of the customer of any other property, whether owned by the customer or others, of for any incidental, special or consequential damages including interruption to business, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, location or use of any equipment provided by the Company (e.g., including but not limited to autodialers, jacks, antennas, etc.) or wiring provided by the Company where such installation, operation, failure to operate, maintenance, condition, location or use is not the direct result of the Company's intentional acts. No agents or employees of other carriers shall be deemed to be agents or employees of the Company.

In no event shall the Company be liable to any customer for any damages caused by act of omission of any local exchange carrier or other third party in establishing the Company as the customer primary interexchange carrier. The Company shall not be liable for any charges billed to the customer by another carrier caused by a local exchange carrier's failure to process a request designating the Company as the customer's primary interexchange carrier or caused by any act or omission of any third party.

The Company reserves the right to transfer customer accounts to other carriers at the Company's sole discretion. The Company is not liable for any losses, damage, claims, suits, or other actions asserted by

SECTION 2 - RULES AND REGULATIONS

Liability (Cont'd)

the customer due to the policies, procedures, service quality, or charges instituted by a carrier to which the Company transfers customer accounts.

Interruption of Service

Credit allowance for interruptions of service which are not due to the Carrier's testing or adjusting, or due to the negligence of the customer, or to the failure of channels, equipment and/or communications systems provided by the customer, are subject to the general liability provisions set forth in Section 2 herein as follows below. It shall be the obligation of the customer to notify the Carrier of any interruption in service. Before giving such notice, the customer shall ascertain that the trouble is not being caused by any action or omission of the subscriber, not within his control, or is not in the wiring or equipment connected to the terminal of the Carrier.

Restoration of Service

The use and restoration of service in emergencies shall be in accordance with Part 64, Subpart D of the Federal Communications Commission's Rules and Regulations, which specifies the priority system for such activities.

Discontinuance by Carrier

The Carrier, by written notice to the customer, may immediately discontinue service or cancel an application for service without incurring any liability for any of the following reasons:
Nonpayment of any sum due to the Carrier for service for more than 30 days beyond the date of rendition of the bill for such service.

A violation of any regulation governing the service under this Price List.

A violation of any law, rule or regulation of any government authority having jurisdiction over the service.

The Carrier is prohibited from furnishing services by order of a court or other government authority having jurisdiction.

Cancellation by Customer

Service will be provided until canceled by the customer. Cancellation by the customer must be provided in writing, with not less than thirty (30) days' notice. If a customer orders service and then cancels his order before the service begins, before completion of the minimum period, or before completion of some other period mutually agreed upon, in writing, by the customer and the Carrier, a charge will be made to the customer for the nonrecoverable portions of expenditures or liabilities incurred expressly on behalf of the customer by the Carrier and not fully reimbursed by any assessed installation, minimum, and monthly charges (including those for the minimum service period). If, based on such an order, any construction has either begun or been completed, and no service provided, the nonrecoverable cost of such construction shall be borne by the customer.

SECTION 2 - RULES AND REGULATIONS

Inspection, Testing, and Adjustment

Carrier may, upon reasonable notice, make such tests and inspections as may be necessary to determine whether the requirements of this Price List are being complied with in the installation, operation, or maintenance of the customer's or the Carrier's equipment. The Carrier may interrupt the service at any time, without penalty to itself, because of departure from any of these requirements except as provided below.

Upon reasonable notice, the facilities provided by the Carrier shall be made available to the Carrier for such tests and adjustments as may be necessary to maintain them in satisfactory condition. No interruption allowance will be granted for the time during which such tests and adjustments are made.

Change in Service Agreement

When a change in service arrangement involves the continued use by the customer of circuits furnished by Carrier, installation charges do not apply to the circuits continued in use. The minimum service period for the circuits contained in use is determined from the date of the initial installation thereof.

Local Charges

In certain instances, the customer may be subject to local telephone charges or message unit charges in using Carrier's service. Carrier is not responsible for any such local charges imposed directly on the customer by the local telephone company for gaining access to Carrier's intercity network.

Taxes and Surcharges

Customer will be billed for and is liable for payment of all applicable federal, state, and local taxes, surcharges, utility, other assessments, taxes, or fees including such amounts as Carrier may be authorized to pass through to the customer.

When utility or telecommunications assessments, gross receipts taxes, regulatory fees, franchise fees, or privilege, license, occupational, excise, or other similar taxes or fees, based on interstate receipts are imposed by certain taxing jurisdictions upon the Company or upon local exchange companies and passed on to the Company through or with interstate access charges, the amounts of such taxes or fees may be billed to customers in such a taxing jurisdiction on a prorated basis. The amount of charge that is prorated to each customer's bill is determined by the interstate telecommunications services provided to and billed to a customer service location in such a taxing jurisdiction with the aggregate of such charges equal to the amount of the tax or fee imposed upon or passed on to the Company.

A surcharge will be assessed on all charges for outbound service originating at, or inbound service terminating at, addresses in states which levy, or assert a claim of right to levy an ad valorem tax on the Company's interstate property located in that state. This surcharge is based on property located in that state and used by the Company to provide interstate service. The surcharge is derived by using the ratio of interstate revenue to total revenue from all states which levy an ad valorem tax on the Company, multiplied by total ad valorem taxes imposed in those states.

Pending the conclusion of any challenge to a Jurisdiction's right to impose an ad valorem tax, or gross revenue receipts tax, the Carrier may elect to impose and collect a surcharge covering such a tax, unless otherwise constrained by court Order or direction, or it may elect not to impose and collect the surcharge.

SECTION 2 - RULES AND REGULATIONS

Taxes and Surcharges (Cont'd)

If it has collected a Surcharge and the challenged tax is found to have been unenforceable, the carrier, in its sole discretion, will either reduce service rates, for a fixed period of time in the future in order to flow-through to the customer an amount equivalent to the funds collected or it will credit or refund such amounts to affected customers (less its reasonable administrative costs), if the funds collected were retained by the carrier, or its affiliates, or if they were delivered over to the taxing jurisdiction and returned to the carrier, or its affiliates, or negotiated an arrangement with the taxing jurisdiction that benefits customers in the Jurisdiction in the future.

Federal Universal Service Fund and Federal Cost Recovery Fees

Pursuant to the Telecommunications Act of 1996, as implemented by the Federal Communications Commission (FCC), FTC is required to pay into a federally mandated "Universal Service Fund" by means of "contribution factors" assessed on all or part of FTC's interstate and international revenues. The "Universal Service Fund" provides federally subsidized affordable access to modern telecommunications and information services for schools, libraries, and rural health care facilities who meet specific eligibility standards, as well as provides support to specified federal "Lifeline," "Link-up," and "High Cost Fund" programs used to subsidize local telephone service.

In accordance with FCC guidelines set forth in Order No. 97-157, FTC has elected to pass-through these Universal Service Fund (USF) Costs to all retail customers. Accordingly FTC assesses a "Federal Cost Recovery Fee" on all charges for interstate and international services, including those charges billed on FTC's behalf by any third-party agent with the capability to assess such a surcharge. The Federal Cost Recovery Fee is computed as a percentage of the charges on which it is assessed. The percentage is equal to the USF Contribution Factor as determined from time to time by the FCC.

Access Recovery Charge (ARC)

In November of 2011, the FCC ruled that all local exchange companies had to reduce the rates at which they charged long distance companies to access their networks and complete calls. This resulted in a loss of revenue to many small independent local carriers. The monthly ARC, approved by the FCC, charged to local exchange consumers, is designed to help offset the local carrier's lost revenues.

Federal Excise Tax

This is a three (3) percent federal tax which applies only to local service billed separately from long distance service.

State Sales Tax

This seven (7) percent state tax, found on telephone bills, is based on the cost of all goods and services related to consumers' telecommunication services except Internet services which remain untaxed.

FCC Access Charges

The FCC Access Charge, or Subscriber Line Charge, is a fee that consumers pay to local carriers that connects them to the national telephone network. Local telephone companies recover some of the costs of telephone lines connected to your home or business through this monthly charge on your local

SECTION 2 - RULES AND REGULATIONS

Taxes and Surcharges (Cont'd)

telephone bill. This fee is regulated and capped by the Federal Communications Commission, not by state Public Utility Commissions. The money received from this charge goes directly to local telephone companies to help ensure that all Americans can afford at least a minimal level of basic telephone service.

Mississippi Dual Party Relay Service Fund

This small charge, also known as the TRS fee, appears on telephone bills in Mississippi. The local carrier collects these monies and remits them to the Mississippi Public Service Commission for the administration and operation of a statewide program which provides telecommunications access to persons who are speech and hearing impaired or similarly impaired.

Mississippi State 911 Service Charge and Itawamba County 911 Surcharge

Telephone companies collect these monies and remit them to the state and local governmental agencies charged with the administration and operation of the 911 Emergency network. Further information is found in this Price List, Section 3, under "911 – Universal Emergency Number Service."

Terminal Equipment

The Carrier's facilities and services may be used with or terminated in customer-provided terminal equipment or customer-provided communication systems, such as teleprinters, handset, or data sets. Such terminal equipment shall be furnished and maintained at the expense of the customer, except as otherwise provided. The customer is responsible for all costs at their premises, including customer personnel, wiring, electrical power, and the like, incurred in customer use of Carrier's service.

When such terminal equipment is used, the equipment shall comply with the minimum protective criteria and shall not interfere with service furnished to the customers. Additional protective equipment, if needed, shall be employed at the customer's expense. When service using local telephone company voice grade facilities is terminated in customer-provided terminal equipment, channel derivation devices, or communications systems, the customer shall comply with the following minimum protective criteria.

When the facilities furnished under this Price List are used in common with local telephone company system services, it is necessary, in order to prevent excessive noise and crosstalk, that the power of the signal applied to local telephone company lines be limited. A single valued limit for all applications cannot be specified. Therefore, the power of the signal in the band above 300 Hertz which may be applied by the customer-provided equipment at the point of termination will be specified by the Carrier for each application, to be consistent with the signal power allowed on the telecommunications network.

The customer shall also comply with the minimum protective criteria generally accepted in the telephone industry and other appropriate criteria as may be prescribed by the Carrier. Customer shall ensure that their terminal equipment is properly interfaced with the Carrier's facilities, that the signals emitted into the Carrier's facilities are of the proper mode, band-width, power, data speed, and signal level for the intended use customers, and that the signals do not damage the Carrier's equipment, injure personnel or degrade service to others.

If customers fail to maintain and operate their terminal equipment properly, resulting in the occurrence or possibility of harm to the Carrier's equipment, personnel, or the quality of service to others,

SECTION 2 - RULES AND REGULATIONS

Terminal Equipment (Cont'd)

the Carrier may, upon written notice, require the use of protective equipment at the offending customer's expense. If this fails to produce satisfactory quality and safety of service, the Carrier may, upon written notice, terminate the customer's service.

Credit Regulations

Pursuant to limitations set forth in Section 2 preceding, the following will apply:

Interruption of Service

No credit will be allowed for relinquishing facilities in order to perform routine maintenance.

Credit for failure of service or equipment will be allowed only when such failure is caused by or occurs in facilities or equipment provided by the Carrier. As used in this Price List, all equipment, facilities and/or services for which the Carrier renders a bill for payment are considered provided by the Carrier whether or not the equipment, facilities and/or services are owned and operated by the Carrier.

No credit will be allowed:

For failure of service or equipment due to customer or authorized user-provided facilities.

For failure of service or equipment due to negligence or willful acts of the customer or his authorized user.

No credit will be allowed:

For unauthorized use by agents, employees, or representatives of the customer.

Credit allowance for failure of service or equipment starts when the customer notifies the Carrier of the failure or when the Carrier becomes aware of the failure and ceases when service has been restored and/or the equipment becomes operational.

The customer shall notify the Carrier of failures of service or equipment and make reasonable attempts to ascertain that the failure is not caused by the customer-provided facilities.

Credit will be allowed only for disabled portions of the service or equipment.

The Carrier, at its option, may deny a customer request for credit in accordance with Carrier's standard credit policy against charges incurred for service provided by another carrier where notification of alleged inferior or inadequate service has not been received by Carrier's Customer Service Department within 24 hours of the occurrence. No credit will be allowed absent such notification.

SECTION 2 - RULES AND REGULATIONS

Credit Regulations (Cont'd)

Outage Credit

For the purposes of this Price List, all months contain 30 days. Service and equipment offered by the Carrier are on a 24 hour per day, seven days per week basis unless specifically stated otherwise.

For purposes of credit computations, every month shall be considered to have 720 hours.

No credit shall be allowed for an interruption of less than 2 hours.

The customer shall be credited for an interruption of 2 hours or more at the rate of 1/360th of the monthly charge for the facilities affected for each period of 2 hours or major fraction thereof.

Where a minimum usage charge is applicable and the customer fails to meet a usage minimum, credit for the outage shall be applied against that minimum equal to 1/360th of the monthly minimum charges associated with the portion of service disabled for each period of 2 hours or major fraction thereof.

Cancellation Credit

Where the Carrier cancels a service or the provision of equipment and the final service period is less than the monthly billing period, a credit will be issued for any amounts billed in advance, prorated at 1/30th of the monthly recurring charge equipment was provided. This credit will be issued to the customer or applied against the balance remaining on the customer's account.

When a customer or the carrier cancels a service or feature associated with a service (for example accounting codes), associated monthly recurring charges previously billed will not be refunded or prorated for any unused portion of the current billing period.

Credit Formula

$$\text{Credit} = \frac{T \times C}{24}$$

"T" is outage time in hours

"C" is total daily charge for affected facility.

Schedule of Immediate Credits for Domestic Calls

Immediate credits will be given for calls which are cut-off, calls to a wrong number and calls with poor transmission quality. Credits are determined as follows:

Credit for calls to a wrong number will equal the normal charge for that call based on specified rates and charges found below in Section 3 of this Price List, distance called, and time of day.

SECTION 2 - RULES AND REGULATIONS

Credit Regulations (Cont'd)

Schedule of Immediate Credits for Domestic Calls (Cont'd)

Credit for calls which are cut off will equal the specified rates and charges set forth for that call based on caller's service option, distance called and time of day.

Credit for calls with poor transmission quality will equal the specified rates and charges found below in Section 3 of this Price List based on caller's service option, distance called and time of day.

Calculation of Distance

Mileage between domestic locations will be determined by applying the formula listed below to the Vertical and Horizontal coordinates set forth in AT&T's domestic Tariff Number 10 incorporated by

The airline mileage between two locations may be calculated using the Vertical (V) and Horizontal (H) coordinates set forth in Part B of AT&T's Table II according to the following formula:

$$\frac{\sqrt{(V1V2)^2+(H1H2)^2}}{10}$$

In the above formula, V1 and H1 correspond to the V & H coordinates of Location 1 and V2 and H2 correspond to the V & H coordination of Location 2.

SECTION 3 – SERVICE DESCRIPTIONS, RATES, AND CHARGES

Local Exchange Service

Rates and charges for recurring services are for a period of one month, payable in advance, and entitle the subscriber to Local Exchange Service including Extended Area Service to Bay Springs Exchanges at the rates below:

Business – one party:	\$34.02
Residential – one party:	\$23.67
PBX Access Trunk:	\$49.94
Key System Line Access:	\$49.94

The above Local Exchange Rates do not reflect the surcharge for Hearing Impaired Services, as approved under PR# 90-UA-0156.

Compliance filing in accordance with Docket No. 07-UN-123.

SECTION 4 LOCAL EXCHANGE SERVICE

SMITH COUNTY ENHANCED AREA CALLING PLAN

1. General

A. Smith County Enhanced Area Calling Plan is grandfathered effective **October 5, 1996**. The calling scope will not be expanded as of the grandfathered date, however, any new NXXs issued for the existing exchanges will be added to the plan. No new service applications will be taken on or after October 5, 1996. All services within a residential or business location must be the same class and type of service, i.e., all Smith County Enhanced Area Calling Plan, all flat rate service or all Bay Springs Area Calling Plan service. Smith County Enhanced Area Calling Plan customers must reside in Smith County.

Existing Smith County Enhanced Area Calling Plan customers may change to the Bay Springs Area Calling Plan during the introductory period of October 5, 1996 through April 4, 1997 and may return to their existing Smith County Enhanced Area Calling Plan within 180 days of changing to the Bay Springs Area Calling Plan. Only one change is permitted. Any Smith County Enhanced Area Calling Plan customers who discontinue the Smith County Enhanced Area Calling Plan for any reason, including but not limited to, disconnect for non-pay, change of service location, disconnect of service, changes or moves, may not re-establish service under the Smith County Enhanced Area Calling Plan.

2. Smith County Enhanced Area Calling Plan

A. Smith County Enhanced Area Calling Plan is an optional offering for residence customers, business customers and customer provided public telephone service providers. The plan provides for local calling from the subscribers' home wire center to specific wire centers in addition to the existing local calling area described in Schedule II, Page 8, Extended Area Service. This offering will be available only to one party subscribers residing in Smith County. (See pages 8.11 through 8.18 for specific wire centers).

Certain rates previously found on this sheet can now be found on Original Sheet 8.1.1

Restricted to existing services.

SECTION 4 LOCAL EXCHANGE SERVICE

SECTION 4 SMITH COUNTY ENHANCED AREA CALLING PLAN (Continued)

2. Smith County Enhanced Area Calling Plan (Continued)

A. (Continued)

This plan is voice service only. If it is determined that usage is considered to be non-residential voice applications such as commercial facsimile or auto-dialing, permanent call forwarding, three-way calling, resale, telemarketing, Internet access services, or other non-residential uses, the telephone company may immediately suspend, restrict, or cancel service without prior notice. Alternatively, the company may bill the usage at the basic MOU rates found in mileage band F.

B. The access line is provided at the following rate.

		<u>Monthly Rate</u>
a)	Residence	
	- One Party Tel-Touch	\$ 17.50 ¹
	Non Tel-Touch	15.50 ® ¹
b)	Business	
	- One Party Tel-Touch	\$ 31.00 ¹
	Non Tel-Touch	29.00 ® ¹
c)	Trunks	
	- Combination (Two-way) Tel-Touch	\$ 31.00 ¹
	Non Tel-Touch	29.00 (R) ¹
	- Inward only Tel-Touch	\$ 31.00 ¹
	Non Tel-Touch	29.00 (R) ¹
	- Outward only Tel-Touch	\$ 31.00 ¹
	Non Tel-Touch	29.00 (R) ¹

d) In addition to the rates in a), b) and c) above, a surcharge for Hearing Impaired Services, as approved under PR# 90-UA-0156 is applicable.

Compliance filing in accordance with Docket No. 07-UN-123.

R - Restricted to existing Non Tel-Touch subscribers as of the effective date of this price list.

Note 1 - Restricted to existing services.

SECTION 4 LOCAL EXCHANGE SERVICE

SMITH COUNTY ENHANCED AREA CALLING PLAN (Continued)

3. Usage Rates

a. In addition to the Charges in 2.B. above, the following rates apply for all Smith County Enhanced Area Calling Plan usage except for calls originated from payphone access line services and are based on specific point to point wire centers. Wire center coordinates are specified in the National Exchange Carrier Association FCC Tariff No. 4.

All local calls are billed in accordance with the usage schedule following. Local usage charges for calls terminating in Bands A, B, C, and D will not exceed \$10.00 for residence and \$25.00 for business customers and trunks.

Calling Bands Minute	Initial Charge	Additional Minutes Charge
A	\$.02	\$.01
B	.04	.02
C	.06	.04
D	.09	.07
E	.11	.09
F	.11	.09

b. Calls originated from payphone access line services will be billed to the payphone provider at the usage rates shown in 15. following.

4. Time/Day Discount The preceding usage rates are peak period rates and apply from 8:00 AM to 8:00 PM, Monday through Friday (excluding holidays). Off-peak period rates apply to all other times and are rated at a 50 percent discount. When messages span more than one rate period, total charges for the minutes in each rate period are summarized and the results for each period are totaled to obtain the total message charge.

5. In addition to the local calling area described in Schedule II, Page 8, Smith County Enhanced Area Calling Plan subscribers will receive local calling for station-to-station sent paid calls completed to their county seat and to specific wire centers set forth in this price list.

6. Customers desiring grouping service who subscribe to the Smith County Enhanced Area Calling Plan will be rated at the charges described in 14. Grouping Service.

7. Zone charges will be rated at the charges described in 13. following.

8. Calls completed with automated calling cards or operator assistance within the local calling area described in Schedule II, Page 8, will have usage charges and appropriate Operator Assisted Local Call surcharges applied (when applicable). Such calls are itemized on the subscriber's billing statement and are billed outside any applicable usage allowances for dialed sent paid calls.

Non-sent paid calls are charged at the established long distance and operator surcharge rates.

SECTION 4 LOCAL EXCHANGE SERVICE

SMITH COUNTY ENHANCED AREA CALLING PLAN (Continued)

9. Usage charges, only for calls completed within the local calling area described in Schedule II, Page 8, may be billed to numbers other than the Smith County Enhanced Area Calling Plan telephone or to approved Company calling cards.

10. All rules and regulations that appear in other sections of this price list apply unless otherwise stated herein.

11. Zone Charges Outside Base Rate Area

The following zone charges apply in connection with service outside the base rate area for Smith County Enhanced Area Calling Plan subscribers. These charges are in addition to the rates described above for the Smith County Enhanced Area Calling.

LOCAL EXCHANGE SERVICE

AREA CALLING PLAN

1. General

A. Bay Springs Area Calling Plan will be offered to all customers by billing periods on or after the effective date of this price list at the access line rates and usage charges as described in 2. and 3. following. Bay Springs Area Calling Plan is an optional offering for residence and business customers.

2. Bay Springs Area Calling Plan

A. Bay Springs Area Calling Plan is an optional offering for residence and business customers and a non-optional offering for payphone access line service providers. The plan provides for local calling from the subscribers' home wire center to all Mississippi wire centers within a 55 mile radius based on airline mileage. The existing local calling area described in Schedule II, Page 8, Extended Area Service is included in Bands A, B and C. This offering will be available only to one party subscribers. This plan is voice service only. If it is determined that usage is considered to be non-residential voice applications such as commercial facsimile or auto-dialing, permanent call forwarding, three-way calling, resale, telemarketing, Internet access services, or other non-residential uses, the telephone company may immediately suspend, restrict, or cancel service without prior notice. Alternatively, the company may bill the usage at the basic MOU rates found in mileage Band F.

Certain material previously found on this sheet can now be found on Original Sheet 8.19.1.

B. The access line is provided at the following rate:

		<u>Monthly Rate</u>
a)	Residence - One Party	\$ 21.58
b)	Business - One Party	\$ 33.15
c)	Trunks - Combination (Two-way)	\$ 33.15
	- Inward only	\$ 33.15
	- Outward only	\$ 33.15

d) In addition to the rates in a), b) and c) above a surcharge for Hearing Impaired Services, as approved under PR# 90-UA-0156 is applicable.

Compliance filing in accordance with Docket No. 07-UN-123.

Certain material on this sheet formerly appeared on 4th Revised Sheet 8.19.

LOCAL EXCHANGE SERVICE

BAY SPRINGS AREA CALLING PLAN (Continued)

3. Usage Rates

a. In addition to the Charges in 2.B. above, the following rates apply for all Bay Springs Area Calling Plan usage except for calls originated from payphone access line services and are based on airline mileage between wire centers. Wire center coordinates are specified in the National Exchange Carrier Association FCC Tariff No. 4. All local calls are billed monthly in accordance with the usage schedule following. Local usage charges for calls terminating in Bands A, B and C will not exceed \$15.00 for residence and \$25.00 for business customers and trunks.

Mileage Bands	Initial Minute Charge	Additional Minutes Charge
A (0 miles)	\$.02	\$.01
B (1 - 10 miles)	.04	.02
C (11 - 16 miles)	.06	.04
D (17 - 30 miles)	.09	.07
F (31 - 55 miles)	.12	.10

b. Payphone service providers will be billed at the usage rates shown in 14.2.B. following, for Payphone Access Line service.

Certain material previously found on this sheet can now be found on Original Sheet 8.19.1.

LOCAL EXCHANGE SERVICE

BAY SPRINGS AREA CALLING PLAN (Continued)

4. **Time/Day Discount** - The preceding usage rates are peak period rates and apply from 8:00 AM to 8:00 PM, Monday through Friday (excluding holidays). Off-peak period rates apply to all other times and are rated at a 50 percent discount. When messages span more than one rate period, total charges for the minutes in each rate period are summarized and the results for each period are totaled to obtain the total message charge.

5. In addition to the local calling area described in Schedule II, Page 8, Bay Springs Area Calling Plan subscribers will receive local calling for station-to-station sent paid calls completed to their county seat and to specific wire centers within 55 miles of their originating wire center. If any wire center in an exchange is located within 55 miles of any wire center in the originating exchange, local calling will be provided from the entire originating exchange to the entire terminating exchange, per the following to and from rate center schedules. County Seat calls for each exchange area will be included in the capped usage under Band C, unless the County Seat is located in Band A or B, regardless of airline miles from the originating wire center. Non-sent paid calls are charged at the established long distance and operator surcharge rates. The Telephone Company will include new NXX's to the area calling plan as they are placed in service, within the 55 mile area from each specific wire center. Tariffs will be updated no less than annually to reflect these changes, however, a current NXX list will be maintained at the Telephone Company business office.

6. Customers desiring trunk hunting service who subscribe to the Bay Springs Area Calling Plan will be billed at the charges described in 13. Trunk Hunting Service in addition to the Area Call Plan line access charge.

7. Calls completed with automated calling cards or operator assistance within the local calling area described in Schedule II, Page 8, will have usage charges and appropriate Operator Assisted Local Call surcharges applied (when applicable). Such calls are itemized on the subscriber's billing statement and are billed outside any applicable usage allowances for dialed sent paid calls.

8. Usage charges, only for calls completed within the local calling area described in Schedule II, Page 8, may be billed to numbers other than the Bay Springs Area Calling Plan telephone or to approved Company calling cards.

9. Service order charges are waived for customers who wish to change their usage package option for the initial 90 days of the Area Calling Plan availability in each exchange. After the initial 90 days have expired, applicable service order charges will apply to changes in usage package options.

10. All rules and regulations that appear in other sections of this price list apply unless otherwise stated herein.

SERVICE CHARGES

Bay Springs Long Distance Services

Interstate long distance refers to calls made from one state to another; Intrastate long distance generally refers to calls made from one area of a state to another; and International calls are made from one country to another. For information on international calling, we ask you to refer to the Bay Springs Telephone Directory which specifies how to make International calls.

	INTERSTATE RATE	INTRASTATE RATE
Per minute, billable in six second increments:	\$0.10	\$0.12

The duration of Interstate and Intrastate calls is rounded up to the nearest six (6) second interval of each minute and each call is billable at that duration.

Long Distance Account Codes allow consumers to control and catalog all long distance calls from a given telephone. Users must enter the code prior to making a long distance call. Monthly calling data are provided to the account holder. Monthly Rate: \$5.00

MINIMUM SERVICE CHARGE FOR WILLFUL DESTRUCTION OF TELEPHONE LINES OR EQUIPMENT

BUSINESS, EACH VISIT	\$35.00
RESIDENCE, EACH VISIT	\$25.00

When the Company is required to make a visit to the customer's premises for the purpose of correcting a trouble caused by willful destruction of the telephone lines or equipment, the minimum service charge will apply if another specific service charge does not apply.

The Company undertakes to maintain and repair the facilities which it furnishes to customers, unless otherwise stated in this price list. The customer is assessed the actual cost of each apparatus, equipment or lines destroyed due to malicious, willful and negligent damage. The customer may not, nor permit others to, rearrange, disconnect or remove any equipment or wiring installed by the Company, unless otherwise authorized in this price list. If facilities are rearranged, disconnected or removed, the Company shall have the right to make a charge sufficient to recover any losses experienced as a result of such unauthorized tampering.

MAINTENANCE OF SERVICE CHARGE

The customer shall be responsible for the payment of Company charges for visits by the Company to the customer's premises where a service difficulty or trouble report results from customer-provided equipment and/or facilities, or from customer premises inside wire not covered under Option I of the deregulated optional maintenance plan.

The following charges will apply:

RESIDENCE	\$60.00*
BUSINESS	\$60.00*

SERVICE CHARGES

A Maintenance of Service Charge will also apply for each repair visit to clear a trouble report that is caused by the subscriber's receiver being off-hook. The Company shall advise the individual requesting that the trouble be cleared that he will be charged if the trouble is caused by a receiver off-hook, rather than the customer who left his receiver off-hook. On party lines, the subscriber leaving the receiver off-hook will be charged. Other instances when the Maintenance of Service Charge will apply are specifically stated in this price list.

*rate for first hour, each additional quarter hour will be billed at \$15.00

Service Order Charges (SOC)

Service Order Charges are non-recurring charges for ordering, installing, moving, changing, rearranging, and the furnishing of telephone service. In some instances, Service Charges are to be paid at the time of application of service but normally they are billed and payable on the forthcoming bill.

In many instances, more than one SOC is required to complete the work.

SOC with Premise Visit: Applies when customer-requested work is performed in the receiving, recording, and processing the request at one time and a visit to the customer's premise is required. When more than one SOC is billed during the same visit, only one SOC with Premise Visit is billed.

SOC without Premise Visit: Applies the same as SOC with Premise Visit except that no visit to the customer's premise is required.

Central Office Line Connection Charge: This charge is billed for the arranging, changing, and translating of an exchange line to provide service between the Central Office and the customer's premise.

Installation Charge: This is a non-recurring charge that applies to the provision of certain items of equipment or facilities as distinguished from SOC with Visit and SOC without Visit. The total charges for a new installation will be the application of three different Service Order Charges.

Maintenance of Service Charge: Applicable to repair and trouble visits to the customer's premise in connection with a service difficulty. The minimum charge is one hour (\$35.00). Thereafter, full hours and fractions of hours of labor are billed according to the actual hours and partial hours worked.

Premise Work Charge: Applicable for extra work performed by the Company at the customer's premise which is necessary for the service's proper functioning.

Record Ordering Charge: Applies to the listing of the activity requested by the customer which requires no Central Office or customer premise work.

Number Change Charge: Applies to a customer-requested change of telephone number. Two SOC's apply: Number Change Charge and SOC without Visit.

Restoration Charge: Applies to the restoring of service which has been denied. Two SOC's apply: SOC without Visit plus Central Office Line Charge. Service accounts that have been denied more than ten (10) days will thereafter be treated as a new service installation and new installation SOC's will apply.

SERVICE CHARGES

Service Order Charges (SOC) (continued)

Suspension Charge: Applies to the temporary suspension of service upon customer request.

Termination Charge: This charge applies when a customer discontinues service prior to the expiration of the initial service period designated.

Service Order Charges Rates:

For connecting, moving. Or changing service:	Non-Key <u>Residence</u>	<u>Business</u>	Business or Residence <u>Key/PABX</u>
Service Ordering Charges (SOC)			
SOC With Visit:	\$18.00	\$28.00	\$28.00
SOC Without Visit:	\$ 7.50	\$16.00	\$16.00
Record Ordering Charge:	\$ 7.50	\$12.00	\$12.00
Central Office Line Connection Charge:	\$11.00	\$17.50	\$17.50
Number Change Charge, per number:	\$ 6.00	\$ 7.00	\$ 7.00

Other Labor Rates:

Standard Labor Charges, first hour: \$ 35.00

Standard Labor charges, each ¼ hour
after first hour: \$ 7.50

Presubscribed Interexchange Carrier (PIC) Charges

When consumers request a change in their interstate or intrastate long distance carriers, the following charges apply in addition to the Record Ordering Charge (see page 22 of this Price List). Rates apply for each PIC change.

	<u>Manual Order</u>	<u>Electronic Order</u>
Change InterLATA PIC:	\$5.50	\$1.25
Change InterLATA & IntraLATA PICs simultaneously These are to be billed twice—one for each PIC change:	\$2.75	\$0.63

FCC Access Charges

These charges are defined in above in Section 2 of this Price List. The rates are specified here:

Business – one party:	\$6.50
Residential – one party:	\$6.50
Business – multi line:	\$9.20

SERVICE CHARGES

LATE PAYMENT PENALTY CHARGE

All bills for local, toll or miscellaneous services are due when rendered and payable at the office of the Telephone Company or authorized collection agency within ten (10) days of the billing date. All bills not paid within fifteen (15) days of the billing date will be assessed a late payment charge of **\$4.00** which will apply to each residence subscriber's bill with a balance greater than **\$6.00** for charges (including amounts billed in accordance with a tariff dealing with the Billing and Collection Services) when any undisputed portion of all charges on the subscriber's previous month's bill has not been paid in full prior to the next billing date. A late payment charge of fee of two percent (2%) will apply to each business subscriber's total undisputed unpaid balance for charges (including amounts billed in accordance with a tariff dealing with the Billing and Collection Services) when any undisputed portion of all charges on the subscriber's previous month's bill has not been paid in full prior to the next billing date. The two percent (2%) late payment charge will apply to all charges on a subscriber's previous month's bill that were not paid prior to the next billing date. Failure to receive the telephone bill does not relieve the subscriber from prompt payment within ten (10) days of the billing date. The Telephone Company will assess a penalty on disputed bills that are delinquent until the dispute is settled and/or paid in full.

The late payment charge shall not apply for Mississippi state, local, or municipal government agencies.

RETURNED CHECK CHARGE

When payment in the form of a bank check or bank draft for services rendered is returned to the company, the customer will be assessed a service charge not exceeding that which is permitted by applicable law.

Pursuant to Section 97-19-57, Mississippi Code of 1972, the Company will apply a returned check charge of Forty Dollars (**\$40.00**) for each check or draft that is not accepted by the subscriber's financial institution on which the check or draft is written.

CALLING SERVICES AND FEATURES

Call Block: This service allows users to block calls from up to eight (8) telephone numbers. Users can either block selected numbers ahead of time or block repeat calls. In either case, the caller is rerouted to a recorded message and the called telephone does not ring.

Call Forwarding: This is a service allowing calls made to one number to be forwarded to another.

Call Forwarding Busy Line: This service enables users who are on a call to forward incoming calls to another telephone number.

Call Forwarding Don't Answer: This feature lets users who are on a call to send incoming calls to another telephone or send unanswered calls after three or four rings to another telephone.

SERVICE CHARGES

CALLING SERVICES AND FEATURES (continued)

Call Return (*69): This feature automatically dials the most recent incoming call, whether the call was answered, unanswered, or busy and will continue to attempt to connect for thirty (30) minutes or until the connection is made.

Call Selector: This feature allows users to screen incoming calls by giving specified incoming telephone numbers a distinctive ring. Up to eight (8) different numbers can be added to a Call Selector list.

Call Tracing: This feature assists users in initiating an automatic trace of the most recent call received. Trace information is then sent to the Company, not directly to customers.

Call Waiting: This feature notifies a user on a call that there is another incoming call. The user is able to place the first call on hold while answering the second one.

Caller ID Deluxe: This feature shows the call recipient the name and number of the calling party.

Distinctive Ring: This feature provides additional telephone numbers on the same line as an existing number, each number ringing with a distinguishing ringing pattern.

Preferred Call Forwarding: This service lets customers specify which calls are forwarded by limiting the forwarded calls to the numbers on a user-established list.

Remote Call Forwarding: This feature lets users remotely forward incoming calls to another telephone number.

Repeat Dialing (*66): This feature automatically redials the last number dialed and will continue to redial it for thirty (30) minutes or until the connection is made.

Speed Calling: This is a feature that facilitates quicker dialing from a prearranged list of telephone numbers by using abbreviated codes.

Three-way Calling: This feature allows the adding of a third party to a telephone conversation without the assistance of a telephone operator.

Three-way Calling Transfer: This feature enables users to transfer an existing call to be transferred to another telephone number.

Voice Mail: This feature allows incoming callers to record voice messages when the telephone is unanswered.

Inside Wire Maintenance Plan

This is an optional service available to customers, which covers diagnostics and repairs to the inside wire and the jacks associated with the customer's wiring inside the home.

Monthly charge: \$5.00

T-1 Local Loop Facility

Where facilities are available, T-1 local loops from the customer's serving wire center to the customer's designated premise will be provided at the following rates and charges. These charges are in addition to the local service trunk charges in Section II of this price list.

	Monthly	Nonrecurring
Per full or fractional T-1 service:		
T-1 local loop facility (1st route mile or fraction thereof)	\$140.00	\$ 300.00
Each additional mile or fraction thereof	\$120.00	\$ 150.00
Basic T-1 System charge in addition to the local loop facility charge		
Basic System	\$210.00	\$ 700.00

DID Services (trunks) must be provisioned through a T-1 local loop facility.

Fractional T-1 service (less than 24 channels) will require a Multiplexing Charge.

Multiplexing for fractional T-1 (Less than 24 channels)	\$185.00	\$ 300.00

CALLING SERVICES AND FEATURES (continued)

Rates and Charges (Continued)

Direct-Inward Dialing (DID) Service

DID service permits calls incoming to a PBX or other CPE from the network to reach a specific station line number without the assistance of an attendant. DID service is provided subject to the availability of facilities and may be furnished from the central office which regularly serves the area in which the customer is located or from a foreign central office equipped to provide DID service subject to the appropriate intra/interexchange rates. No outbound service will be allowed from any trunk in the DID group or DID numbers assigned.

Rates and Charges

Direct Inward Dialing (DID) Charges	Nonrecurring Charge	Monthly Rate
1. Group of 20 working or reserved DID numbers ¹		
a) Working numbers, each group of 20	\$480.00	\$ 3.40
b) Reserved numbers, each group of 20	480.00	3.40
2. DID Trunk Termination in Central Office ²		
a) Each, Inward Only Trunk	50.00	26.00
3. Multifrequency (MF) Pulsing Option ³		
a) Each Trunk	-	7.50
4. Dual Tone Multifrequency (DTMF) Option ³		
a) Each Trunk	-	7.50
5. Automatic Intercept Service ⁴		
a) Per number referred	16.00	-

¹ The nonrecurring Charge applies to the first group of DID numbers assigned to a customer per occasion.

² This charge is in addition to PBX access line charges and other services provided in connection with DID service.

³ These options provide faster signaling on DID trunks. The choice of pulsing alternative depends on the customer's premises equipment.

⁴ Provides automatic referral of calls from a non-listed disconnected DID telephone number to a corresponding new telephone number for twelve months or until the delivery of the new directory, whichever comes first. AIS is available only where facilities permit.

Integrated Services Digital Network (ISDN)

ISDN Services, also known as Advanced Digital Services, are a set of communication standards for the simultaneous digital transmission of voice, video, data, and other network services over the traditional circuits of the public switched telephone network. There are two different types of ISDN: 1) Primary Rate Interface (PRI); this line has 23 bearer channels with a total speed of 1,544 kbit/sec. ISDN is used mostly for telephone communication rather than data transmission, particularly within companies that have a large PABX.

The below listed rates and charges are merely representational and do not attempt to provide comprehensive rating data. For complete information contact BST at 800-832-2515.

	<u>Monthly Rate</u>	<u>Nonrecurring Charge</u>
23 Channel Primary Rate Interface (PRI)*:	\$437.00	\$1,060.00
16 Channel Primary Rate Interface (PRI)*:	\$354.00	\$1,060.00
12 Channel Primary Rate Interface (PRI)*:	\$278.00	\$1,060.00
Line Port (PRI)	\$25.00	

*2-, 3-, and 5-year discounts available.

Telephone Directory

The Telephone Directory is the property of Bay Springs Telephone Company and is published by the Company for the purpose of informing the public of pertinent calling information.

Directory Listings

These rates and regulations apply only to the White Pages Section of the directory, which is an alphabetical arrangement of the names of the Company's customers, their telephone numbers, and their full physical addresses. The Yellow Pages Section contains listings of the Company's business customers arranged by customer-chosen business classifications as well as paid advertisements. Each residential and business customer's listings will appear in the White Pages Section at no charge. Each business customer's listings will also appear in the Yellow Pages Section at no charge. Customers may choose to omit the appearance of their listings in either or both sections. See Nonpublished and Nonlisted Telephone Listings below in this subsection of this Price List. Trade Names and unusual names will not be listed unless the customer can present evidence of authorization to do business under that name.

Primary Listings: Includes name, address, and telephone number of the individual, organization, or business at no charge for whom the telephone service has been contracted.

Regular Extra Listings: These may be partners, members, other businesses, or employees of the businesses. Advertisements are not acceptable. Residential customers may list other household members.

Duplicate Listings: Any name's vanity spelling or nickname that is not considered advertisement.

Alternate Listings: Listings that refer calling parties to another telephone number outside of business hours or if there is no answer on the first-listed number.

Extra Lines of Information: Listings of office hours or other lines of extra information. Advertisements are not acceptable.

Foreign Listings: Listings included in the White Pages that are generated by a Carrier other than the Company.

Enterprise or WX Service Listing: Customers wishing for their patrons to be able to call them at no charge to the patron may be provided a telephone number which rings at a specific location. Toll charges will be billed for each call. These Enterprise Listings will appear in the White Pages.

Nonpublished Listings: Customers wishing to omit their directory listing data from the directory and from directory assistance may request for a Nonpublished Number or Listing.

Nonlisted Listings: Customers wishing to omit their directory listing data from the directory but not from directory assistance may request a Nonlisted Number or Listing.

411 Directory Assistance (DA)

DA is a telephone service used to ascertain a specific telephone number and/or address of a residence, business, or government entity. Local and National DA can be reached by dialing “411” or “1-411.” Customers have the opportunity to obtain up to three listings per call.

Listings within the caller’s local calling area, per call:	<u>Charge</u>
	\$1.40

511 Dialing Code for Traffic Information

The Company provides the use of the telephone number “511” free of charge to the general public. Dialing 511 connects people travelling through Mississippi with the Mississippi Department of Transportation (MDOT), who supplies free resources regarding traffic, emergency information, road conditions, construction zones, weather, and more. Visit the MDOT website at www.mdottraffic.com for more information

711 Dialing Code for Telephone Relay Service (TRS)

The Company provides the use of the telephone number “711” free of charge to the general public as prescribed by the Federal Communications Commission in its Docket 92-105. Telecommunications Relay Services permit persons with hearing, speech, visual, or motion disabilities to use the telephone system via a text telephone (TTY) or other device to call persons with or without such disabilities. TRS users may dial “711” to reach an operator who will help set up a TRS call.

811 Dialing Code for Mississippi 811

The Company provides the telephone number “811” for use of excavators who must dig underground to install facilities of any kind. Prior notification of all excavation and subsequent location of pre-existing underground facilities are required by law. Visit www.ms811.org to find complete information.
